

ABDURRAHMAN SABER FATOUH

Backend Developer | Cloud & DevOps Enthusiast

boda.saber.dev@gmail.com • <https://www.linkedin.com/in/abdelrahman-fattouh-1165bb407> • 6 October

Summary

Computer Science and Engineering undergraduate specializing in backend development, adept at creating secure, scalable APIs with Node.js, Express, and TypeScript. Experienced in PostgreSQL database design, query optimization, and migration processes using Knex.js. Currently advancing expertise in cloud technologies including AWS, containerization with Docker, and CI/CD practices aimed at achieving reliable system deployments.

Education

October 6 University	6 October
Bachelor of Science in Computer Science and Engineering	09/2024 - 10/2028

Projects

Hospital Management System (HMS) Backend Developer	Location
	Date period
- Architected and developed a comprehensive backend system for hospital management using TypeScript. - Designed complex relational database models and managed migrations with Knex.js and PostgreSQL. - Implemented secure authentication and authorized access control to ensure patient data privacy. - Optimized API performance for handling medical records and appointment scheduling.	
Nova Tour Backend Developer	Location
	Date period
- Designed and built a scalable RESTful API for a tour booking platform, handling users, tours, and bookings. - Modeled and managed NoSQL data structures using MongoDB and Mongoose (schemas, relationships, validation). - Implemented advanced query features including filtering, sorting, and pagination for efficient data retrieval. - Developed secure authentication and authorization system (JWT-based). - Built centralized error-handling middleware and request validation to ensure application stability. - Optimized database operations to enhance performance and response time.	

Skills

Node.js • Express.js • TypeScript • RESTful API Design • PostgreSQL • Knex.js • MongoDB • Mongoose • Database Design • Query Optimization • Migrations • AWS (EC2, S3, SNS, CloudFront) • Docker • CI/CD • Git • GitHub • Postman • Linux (Ubuntu) • WSL
